★SAFETY INSTRUCTIONS

PRECAUTIONS DURING SERVICING

1. Parts identified by the \triangle (*) symbol parts are critical for safety. Replace only with parts number specified.
2. In addition to safety, other parts and assemblies are specified for conformance with such regulations as those applying to spurious radiation.
These must also be replaced only with specified replacements.
Examples: RF converters, tuner units, antenna selector switches, RF cables, noise blocking capacitors, noise blocking filters, etc.
3. Use specified internal wiring. Note especially:
 - 1) Wires covered with PVC tubing
 - 2) Double insulated wires
 - 3) High voltage leads
4. Use specified insulating materials for hazardous live parts. Note especially:
 - 1) Insulation Tape
 - 2) PVC tubing
 - 3) Spacers (Insulating Barriers)
 - 4) Insulation sheets for transistors
 - 5) Plastic screws for fixing microswitch (especially in turntable)
5. When replacing AC primary side components (transformers, power cords, noise blocking capacitors, etc.), wrap ends of wires securely about the terminals before soldering.

6. Observe that wires do not contact heat producing parts (heatsinks, oxide metal film resistors, fusible resistors, etc.).

7. Check that replaced wires do not contact sharp edged or pointed parts.
8. Also check areas surrounding repaired locations.
9. Use care that foreign objects (screws, solder droplets, etc.) do not remain inside the set.

SAFETY CHECK AFTER SERVICING

After servicing, make measurements of leakage-current or resistance in order to determine that exposed parts are acceptably insulated from the supply circuit.

The leakage-current measurement should be done between accessible metal parts (such as chassis, ground terminal, microphone jacks, signal-input/output connectors, etc.) and the earth ground through a resistor of 1500 ohms paralleled with a 0.15 μ F capacitor, under the unit's normal working conditions. The leakage-current should be less than 0.5 mA rms AC.

The resistance measurement should be done between accessible exposed metal parts and power cord plug prongs with the power switch (if included) "ON". The resistance should be more than 2.2 Mohms.

★INFORMATION

SYMBOLS FOR PRIMARY DESTINATION

Alphabet indicates the destination of the units as listed below.

Symbols	Principal Destinations
A	USA
B	UK
C	Canada
E	Europe (except UK)
J	Japan
S	Australia
V	W. Germany only
U	Universal Area
Y*	Custom version

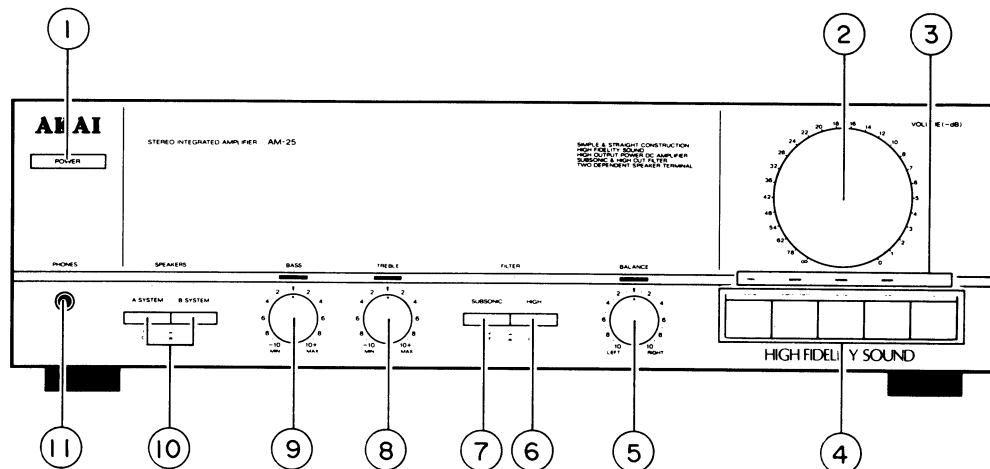

VOLTAGE CONVERSION

(**U** Model only)

Before connecting the power cord. Set the VOLTAGE SELECTOR located on the rear panel with a screw-driver so that the correct voltage is indicated.

I. CONTROLS

❶ POWER Button

To turn the power on and off.

❷ VOLUME Control

To adjust the volume level.

❸ Input Source Indicators (TAPE, VCR/AUX, TUNER, CD, PHONO)

Tells you the amplifier is turned on and which playback source is selected.

❹ Input Select Buttons (TAPE, VCR/AUX, TUNER, CD, PHONO)

To select a playback or recording source you wish to listen to.

❺ BALANCE Control (LEFT/RIGHT)

To adjust the left and right channel volume balance.

❻ HIGH FILTER Switch (ON/ OFF)

To turn the high filter on and off.

❼ SUBSONIC FILTER Switch (ON/ OFF)

To turn the subsonic filter on and off.

❽ TREBLE Tone Control

To adjust the high note (treble) level. When set to 0, the control is ineffective.

❾ BASS Tone Control

To adjust the low note (bass) level. When set to 0, the control is ineffective.

❿ A and B SPEAKERS Switch (ON/ OFF)

To turn the speaker system on and off.

⓫ PHONES Jack

For headphone listening. Connect the headphone plug to the jack.

II. DISASSEMBLY

1. Removal of TOP COVER

Remove 4 screws (A) and 3 screws (B).

3. Removal of BOTTOM COVER

Remove 6 screws (D).

2. Removal of FRONT COVER

Remove 8 screws (C).

How to disconnect the flat cable

Pull up the flat cable, depressing the cover of connector.

III. PRINCIPAL PARTS LOCATION

IV. PARTS LIST

ATTENTION

- 1. When placing an order for parts, be sure to list Part No., Model No. and the description of eachpart. Otherwise, the non-delivery of the part or the delivery of a wrong part may result.
- 2. Please make sure that Part No. is correct when ordering. If not, a part different from the one you ordered may be delivered.
- 3. Since the parts shown in Parts List of Preliminary Service Manual may have been the subject of changes, please use this Parts List for all future reference.

HOW TO USE THIS PARTS LIST

- 1. This Parts List lists those parts which are considered necessary for repairs. Other common parts, such as resistors and capacitors, are listed in the "Common List for Service Parts" from which these parts should be selected and stocked.
- 2. The Recommended Spare Parts List shows those parts in the Parts List which are considered particularly important for service.
- 3. Parts not shown in the Parts List and "Common List for Service Parts" will not in principle be supplied.
- 4. How to read the Parts List.
